

Assignment Submission Instructions

If you would like to submit a draft of your assignment for review to Turnitin prior to submitting final version of your assignment, please use the **Turnitin DRAFT Submissions** page, if available, in your course.

Note: The **Turnitin DRAFT Submissions** page is rolling out in phases and may not be present in your course at this time.

Submitting the final version of your assignment

1. Once you have reviewed all assignment prompts and instructions, select the **Start Assignment** button in the upper, right-hand corner of the assignment page. The assignment submission instructions will then populate at the bottom of the assignment page.

2. Follow the directions for your assignment type.
 - a. To **upload a file**: Drag and drop your file from computer to the box or click box to pull up the document upload dialogue box. Proceed to select and upload your document.
 - b. To submit **media** (videos, audio, etc.): Select the **Record/Upload Media Button**. Now you can select to either record your media using the Canvas device, or you can upload a media file that you have saved on your computer (audio or video file).
 - c. To submit a **text entry**: Type or paste your assignment response directly into the text box that appears.
 - d. To submit a **website URL**: Type or paste your Website URL response directly into the text box that appears.
 - e. To submit a **student annotation**: View the document that was uploaded for review, annotate as directed.

IMPORTANT NOTE: If your assignment requires more than one file to be submitted, make sure to submit all required files within the same assignment submission. For example, if the assignment requires a paper and video submission, you will upload both file types before submitting them for grading.

3. Review the **End-User License Agreement** before marking the box to agree to the terms.
4. Select **Submit Assignment**
