Course Development Services Available for All Courses

Attend Course Development Meetings	• Send a calendar invite if you'd like your liaison to sit in • We can help scaffold research assignments • We can make recommendations for appropriate library databases, tutorials, research guides, etc
Review Course Guide	• Allow 2-3 business days • We review research assignments to ensure adequate library databases, tutorials, research guides, etc. • We may recommend existing learning objects (tutorials, research guides, etc.) to embed in course at point of need.
Provide Direct Links to Library Course Readings	• We ensure direct access to library materials in courses • Might require additional time if a course contains many library resources
Provide Affordable Education Resource (AER) recommendations for course learning materials	• Reach out during kickoff and course guide development. To take advantage of our resource curation service, reach out early in the kickoff and course guide development process. • Curate library resources • Curate open-access (OA) resources available through the library and the open web • Locate and evaluate open educational resource (OER) options • OER, OA, and AER Tip Sheet
Create Customized Learning Objects	• Please allow minimum of 6 weeks if possible • Learning objects may include research-focused videos, research guides, tip sheets, infographics
